

NOTICE TO MARINERS

Gwynt Y Mor Export Cable Survey

Please be advised of this notice advising mariners of the pre-construction survey of the Gwynt Y Mor export cable corridor. The Titan Discovery will carry out the survey work. The work will start some time from the 27th of May 2024 with the works scheduled to last up to 5 days subject to weather.

Figure 1 – Gwynt Y Mor Project Area

Nature of Operations

A pre-survey of the Gwynt Y Mor export cable corridor will be carried out prior to some maintenance work on one of the Gwynt Y Mor export cables (subject to a separate Notice to Mariners) being carried out at a later date.

The Titan Discovery survey vessel will conduct survey operations on a 12-hour basis, and will survey the export cable corridor route as shown in figure 1. We kindly ask that all vessels in the local vicinity observe a 500m stand-off at all times as the vessel may be towing equipment in the water.

During the survey, the vessels will display the prescribed lights and signals for survey operations and will be monitoring VHF Channels 16 and 12.
