

NOTICE TO MARINERS

Gwynt Y Mor Export Cable Survey

Please be advised of this notice advising mariners of the identification of the fault locations and preparing on the cable for Gwynt Y Mor cable project. The Green Isle will carry out these works. The work will start from the approx. 19/20th of July 2024 with the works scheduled to last up to 8 days subject to weather.

Figure 1 – Gwynt Y Mor Project Area

Nature of Operations

For the operations of N-sea the Green Isle will be in the vicinity of the beach to perform maintenance work on one of the Gwynt Y Mor export cables (subject to a separate Notice to Mariners).

The Green Isle vessel will stay on this approx. position for approx. 8 days and conduct the operations on a 12-hour basis, during the works she will be positioned on the pre-set mooring – and indicative area is shown in figure 1. We kindly ask that all vessels in the local vicinity observe a minimal distance of 500m stand-off at all times and are aware of the 3 moorings and the wires which runs from these anchors to the vessel. The vessel will be beached sometimes and doesn't have any manoeuvrability.

During the works the vessel will display the prescribed lights and signals for anchoring operations and will be monitoring VHF Channels 16 and 12.

GREEN ISLE (MULTICAT)

VESSEL DETAILS
